\* We will haul our package bees to your state for customer pick up or we will ship to you from a nearby USPS hub. Add \$15.00/pkg for shipping charges via USPS Priority Mail. If your state is not listed and you would like a Bee Weaver colony PLEASE consider the following option: Purchase the bees from a close by source and order your queen from us. We can ship the queen to arrive at the time you receive your package or you can re-queen the new colony in late May or June. We are being forced to change our shipping method for Package Bees because we had over 1/3 of our shipments killed or severely damaged in 2007 by the USPS. We hope this new delivery process will mean you receive live, healthy bees from us every time. Prices and shipping costs are subject to change without notice. Please see [www.beeweaver.com](http://www.beeweaver.com) for the most current pricing.
